Dr Ezra Sohar, one of Israels most respected social commentators, takes a long hard look at this painful question and comes up with some thought provoking questions. The problems facing Israel include: A government that suffocates free market enterprise; An economy drained by inefficient national companies and monopolies; An unbearable tax load that thwarts business and private initiative; Political corruption and mismanagement; Socialised institutions and industries that unwittingly encourage emigration; Non-representative political parties that perpetuate national weakness and paralyses foreign policy.
